Harvard Forest Summer Research Program: May – August (11 weeks)

SUMMARY

**We seek a diverse group of students
from a variety of undergraduate programs across the country.**

Summer Projects focus on:

- *Wildlife Dynamics & Invasive Species*
- *Computer Science Solutions for Big Data*
- *Atmosphere-Biosphere Exchanges*
- *Paleoecology*
- *Conservation Management*
- *Forest Ecosystem Response to Global Change*
- *Biodiversity*

Students are paid a stipend of \$5,775 for the 11-week session (May to August)

Excellent on-site housing and a full meal plan are included as part of the program.

Assistance with travel costs to and from Harvard Forest is also provided.

Visit <http://harvardforest.fas.harvard.edu/education/reu> for details.

Deadline for Applications is the first Friday in February.
